

*University of Kentucky Job Order Contracting (JOC)*  
*Pre-Solicitation Educational Outreach for Contractors*

*General Construction, Electrical, Mechanical, Concrete/Paving, and Roofing*

*Equip participants with a foundational understanding of JOC, its benefits, structure, and implementation in client programs. Job Order Contracting (JOC) offers a dynamic approach to public procurement, significantly improving efficiency and reducing administrative burdens. This meeting provides a practical overview of JOC's advantages, addressing common challenges in traditional construction procurement, such as fragmented processes, inconsistent bidding, and lack of transparency. We'll explore how JOC streamlines project delivery through expedited, cost-effective methods, reducing both time and financial expenditures. Real-world examples will illustrate the substantial savings achievable with JOC, showcasing data-driven results for contractors.*

- *When 05/07/2026 from 10:00am-12:00pm*
- *Where – MS Teams (QR Code Below)*
- *In-person UK Esports Lounge (401 S Limestone, Lexington, KY 40508)*
