

Fast, crisp, and sharp scans of regular and oversized documents

Scan and collaborate with more power in every pixel

Faster : Spend less time scanning and instead focus on what matters to you. Scan A0 / E size color documents in just 3 ½ seconds and get all the details you need.

Smarter: Works the way you do. Collaborating with large plans and documents suddenly becomes a seamless part of your day-to-day operation. IQ Quattro is networked with your entire workgroup and Cloud enabled so anybody in your project team can use it from their smartphone.

Better : Shadows and unwanted background are suppressed leaving you with crisp, sharp and natural scans – ready to be used in your continued workflow.

Unique technology : With Context CleanScan CIS modules, superfast Ethernet and award-winning Next image software, Context IQ Quattro is the leading scanner for technical projects.

IQ Quattro is recommended for workgroup usage

1 Scanning speeds depend on document width and computer configuration. Contex recommends Intel Core Duo, Core 2 Duo, or better processors, 2GB RAM, Hi-speed USB2. Speed tests performed using Nextimage software, PC with Intel Core i5-2500 Quad processor, 8GB RAM, Hi-speed USB2, 7200rpm HDD, Windows 7 64-bit Ultimate.

2 Requires optional scanner stand.

3 Contex CleanScan technology is based on custom CIS modules with Dual sided LED light and Dual Diffusion.

4 Signal Intensity Matching (SIGMA) is a Contex Patent. Sensor heating during a scan can cause inhomogeneous images. Thanks to Contex innovative thinking Contex IQ Quattro scanners will minimize sensor differences LIVE during a scan.

5 Color Fringe Removal (CFR) is a Contex Patent. Color Fringing is a natural consequence of CIS technology sequentially flashing R-G-B. Thanks to Contex innovative thinking CFR will remove this problem with advanced filter technology.

6 Contex applications creates industry standard raster file formats that can be used in any CAD or GIS application.

7 Requires optional Nextimage software.
